A Pleasant Affair.

'Twas on the 20th of this month, at the house of Mr. A. B. Chenoweth, (Martindale, Texas,) with friends assembled, that Mr. J. C. Meredith, of San Antonio, and Miss Kate A. Chenoweth, daughter of mine host, stood Texas. up before the "master of ceremonies" for the occasion, who brieffy wove the tie that made them one. After this came, not a wedding dinner, but a wedding lunch, both bountiful and tempting. Thence the happy couple sped away to San Marcos to catch Mr. Bills, took our people by surprise. The Fans the 2:30 south bound train for San Antonio, their future home. May peace and prosperity ever attend them.

aged to go to work and put the grounds in good and handsome order. We are truly glad to note this commendable movement. By repairing and painting or whitewashing the fence, removing the old rubbish in the shape of rail pens and tumble-down palings from the graves, &c., &c., cutting out the larger and rougher timber, fixing up the graves and planting flowers and shrubbery, it can at a reasonable outlay of labor and money be made to look like quite another place, and to be an inviting place of resort to our people and visitors from abroad. There rest the remains of representatives of most of the old pioneer families of our town and vicinity, as also many from other States of the Union and from foreign climes, who came to seek health and found-a grave. The place is therefore of historic and special interest. Its present condition is simply disgraceful. Visitors from abroad do not know but this is the only cemetery in the place, and hence are compelled to form a very unfavorable opinion of our community.

of this place, died a few days since, after a lingering illness.

Mrs. Hawkins, a sister of Mr. Swasey, died at his residence on Saturday last. Her remains were taken to Galveston.

Mrs. G. W., Reed returned recently from Arkansas. She reports considerable excitement there in consequence of the discovery of gold in the central dividend which the first year will be \$2, 28 50 and draw out a cash dividend of 7.438, 25 or and draw out a cash dividend of 7,438 25

the railroad some time age. They still cause her much pain.

The wedding on Sunday of Mr. Bennett, the boss carpenter from Chicago, and the elder daughter of Mr. Bills, took our people by surprise. The Fans Paus extends congratulations.

Cone of the pleasant and commendable features of the picnic was the presentation of a basket of good things from the dinner to the prisoners in our jall. Miss May Joyce, assisted by Elder Pritchett, is entitled to the credit.

We have heard some comment on the condition of the reservoir of the waterworks, which we are informed is coated with a green seum. John Williamson says it might readily be removed by fixing it up so at to run over.

for 25,000,00, and then gets back all his premiums and 2½ per cent compound interest.

Or, if in good health, he may convert the above cash value into a paid up policy, payble at his death, no further preiums being required, for \$26,250,00. Thus the Tontine plan gives paid up insurance in fifteen years at ordinary life rates.

Or he may, if in good health, use the cash dividend of \$7,438 25 to buy an addition to his policy of \$14,475 00, making the amount of his policy \$39,475 00, which he cannow, being fifty four years premium on 5,000,00. In the sixteenth year the premiums will be \$754 75 less dividend \$228 50 or first years premium on 39,475 00 526 25 with a beet of this years growth which weighed three pounds. The Doctor is a success as a gardener.

The Old Grave Yard.

We recently referred to the new monument just erected by the Lindsey and Harvey families, and to their determination to deed the old cemetery lot (which is a part of the estate of William Lindsey) to some corporate or other permanent authority in order that the remains of the dead buried there may never be disturbed, and that those having friends buried there may be encour-larged to go to work and put the grounds in large of the picnic. In handling a sun belonging to a success as a gardener.

We have been shown two admirable samples of crist years premium on 39, 475-70 528-25. At this age ordinary life insurance to that amount would require an investment the first year of \$2,249,00. Or he may, whether in good or bad health, with his cash dividend of \$74,38-25 buy an annuity for life of \$228-50 gives a cash income of \$817-50 which pays the preimums due annually on which pays the preimums due annually on the \$25000,00 insurance and \$52-75 besides. Thus he continues his insurance at a profit. Or he may convert the entire cash value of the policy \$13,487-50 into an annuity of \$1068,00 payable annually for the remainder of his life.

He thus invests during fifteen years by

Mr. Bell met with quite a painful accident the day of the plenie. In haudling a gun belegging to a passenger in his hack, it went off, mutilating the ends of several of his lifes.

He thus invests during fifteen years by affected equal annual payments the sum of \$11,321 25, which during that time insures to his heirs the amount of \$25,000,00. At the end of the Isrealite who owned it exclaimed:

"Dere vash no load mit dot gun." Several others were in the hack at the time.

We were favored with a well written report of the festival of last week for the benefit of the Presbyterian church. We regret that, owing to a pressure of job work and lack of space we are compelled to abridge it somewhat, as follows:

Refreshments such as ice cream, lemonade cake and other dainties were served in good style by the ladies and the children of the church.

The curtain rose at \$30, when Mr. Goodrich Jones recited "Artemus Ward on The Mormon Question" with no little credit to himself. Next in the programme was "The Old Maid," a sole, rendered by Mrs. Ed. Kyle. This lady has great natural powers which were brought out with full force in her rendition of the shove character,

Longfellow's "Evaugeline," in four scenes was non forfeiture clause gives the same advantages, and only slightly reduces the profits. Had the above policy not the Tontine feature the dividends would be for fifteen years, less

payment of the policy at death.

The advantages of Tontiue Insurance Investments may be shown by the following. Say a person aged 40 invests \$6500,00 at 5 per cent compound interest for 20 years. He will if he lives have \$17,244 50, but his heirs or estate will have carried the risk of total loss of his life value for twenty years. Suppose a wiser person of the same age invests the same amount 6500,00 at 5 per cent and uses the yearly income by invest-ing it in a twenty year Tontine Life Policy for \$10,000,00. He thus secures to his estate or heirs, insurance for that amount should he die, and should he live, his original capital and returns mittee, called the meeting to order. Prof. J. E. Insurance company will be worth \$18,376,62.
Pritohett was elected shairman and Dr. Burleson Thus the latter makes the most to say nothing of the insurance, or protection of life value. Which is the best investment?

MOST BRILLIANT AND PERFECT LENSE II

They are as TRANSPARENT and COLORLESS as light itself, and for softness of endurance to the eye cannot be surpassed, enabling the wearer to read for hours without fatigue—in fact they are perfect sight preservers.

As thousands throughout the country will testify, who have had their eyes greatly benefited and preserved by their use. Such men as Gov. R. B. HUBBARD, JUDGE E. B. TUBBER, LIEUT-GOV. MAR-TIN, JUDGE BONNER of Supreme Court, deceased, R. F. BUNTING, GEO. GOLDTHWAIT—and hundreds alone in the county of Hays will testify to their great brilliancy and purity. Peddlers or traveling agents will not be supplied with these spectacals at any price.
